

I know, you've seen this before, at least some of you were able to read it. I think I have now cracked it plus I've added a bit about the Annual Dinner

## Whistleblower

February 2014

As of Wednesday 19<sup>th</sup> February we will be unable to use the Wrecclesham Clubroom until after Easter because of building works. A new peak roof is to be added as is a storage area attached to the window end of the main hall. When the building work is finished the interior will be redecorated. The Club will continue to function by meeting at the Crondall Church Hall every Wednesday (2-0 p.m. till 9-0 p.m.) until our home is accessible. By arrangement we will be able to withdraw and restore layouts etc. when required as long as we give the builders notice, through the Club Committee please, and we will work according to the safety requirements of the building site.

### How to get There

a) From Farnham

Use **Crondall Lane** (western end of Farnham) into the village, the village shop will face you. Turn left then second on left down the side of the Pub, **Plume of Feathers**, until you meet the Church. The Church Hall is on the right hand side of the lane to your right (looks like a cottage)

b) From the A287 (Farnham to Odiham road)

Follow signs to Crondall, drive through the village into 20 mph zone had past village shop and find the pub as above.

### Parking

**Do not (repeat not) use the Village hall car park**, tempting though it is. That Hall Committee get very umpty about non hall users parking in their car park.

Park along the Church wall and in the evening in spaces outside the school.

The Hall consists of two rooms, one a bit smaller than our Clubroom but the larger will take a test track and still having room to work. There are about a dozen individual folding tables and lots of stackable chairs. Heating is available. The kitchen is well equipped with china and cutlery, if you wish to use your own mugs I suggest you bring them in your own "toolbox" and take them home each evening. The kitchen is well fitted out, including a stove,

water heater and kettle, but no microwave., **but there is no storage space for our bits and pieces.** Richard Puddiphat has organise space in the smaller room for the 00 test track in its trolleys.

Access is from a Pass code key box for initial entry. Once unlocked as the security lock set for access the key goes back in the box.

## Programme

### February

Wednesday 12<sup>th</sup> Getting ourselves organised to move with tote bins for lamps, soldering irons, vices, etc. Each Group will sort out their part of for Club use and take the bins home each evening.

Wednesday 19<sup>th</sup> Finding out how to use the rooms and N-Gauge running

Duty Group 00-Group

Wednesday 26<sup>th</sup> 00-Group running night  
Duty Group 0-Gauge

## Annual Dinner

Do wish have the Annual Dinner, now probably in April, with the Other Halves, Partners etc? Last year's do was a bit sad in the number attending and Richard was bit embarrassed having anticipated 30 bodies as usual. Please let me know your thoughts

Robin
