

The Whistleblower

April edition

The work on the Wrecclesham building continues, on Friday 11th April I noted the roof tiles had been delivered and were being moved to the roof! The Builder reckons to hand the building back on the 25th April. If so the O-Gauge Open Day will occur at the Centre on Monday 5th May, if not it will be at Wrecclesham Church Hall with the O-Gauge Test Track and two visiting layouts.

The intention is to continue meeting in the Crondall Church Hall until Wednesday 23rd April, the following Wednesday 30th had already been booked by the Ladies of the W.I. (If you want to chance your luck with them for tea you're on your own!) All being well we should be back in Wrecclesham for that day, commencing at 9-0a.m. (ish) as usual. As it will be the forth Wednesday of the month perhaps the OO test track will be up? Moving the OO test track may well be on that Wednesday morning or even the previous Sunday. Watch this space.

Dates to Remember

May 5 th	O-Gauge Open Day (See above)
July 5 th -6 th	Guildford Model Engineering Society Weekend (ride the trains)
