

The Whistleblower

May 2012

SUPPLEMENTARY EDITION

The reason for sending out this supplement edition is to give all members plenty of advance notice of an additional event we are planning to hold in July. Something different during the summer months.

AMERICAN NIGHT - JULY 11TH

We are holding an American Night on July 11th so if you have a passion for North American railroads then this is for you (and even if you haven't, come and enjoy yourself) !!!

The evening will consist of the following:-

- The O gauge (O scale), OO gauge (HO scale) and N gauge test tracks will be erected in the main hall.
- Standard and Narrow gauge rolling stock running to fit the above track scales
- Running will start at 6.30pm until late
- American style pancakes & syrup and hot dogs will be served.
- Dress for the evening will be blue jeans and check (plaid) shirts. Cowboy boots and Stetsons are optional - bring your Engineer's Cap. Guns to be checked at the door!!!!
- Other local clubs have been invited to join us.

Other maybe's

- Chris Webster is talking of bringing along some 16mm track

This is a chance for all members to enjoy themselves running something different. Even if you don't have any North American rolling stock come along and have some fun. Note: Don't bring your British outline stock as it will not be allowed to run.
